

Loving God ~ Serving others ~ Fulfilling our potential

St Margaret's CE Primary School Curriculum

Live life in all its fullness

John 10:10

Curriculum Intent

At St Margaret's CE Primary School, we deliver a broad, rich and varied curriculum which is underpinned by our Christian values and distinctive learning experiences. This is at the heart of everything we do. Every child is recognised as a unique individual with their own starting point for learning. Key learning is built upon as they progress through each key stage enabling the pupils to make meaningful connections between their learning in units of work, individual subjects and across year groups.

Our ethos and values are at the core of everything we do. They are the foundations of our teaching and learning, and provide an environment which prepares our pupils as confident, happy citizens.

We strive to achieve this through a broad, balanced and ambitious curriculum, which provides children with the knowledge and skills that they need to attain their potential. Our curriculum is driven by the aim to enable children to understand the cultural context of where they are, through the arts and culture in our society, so that they can be inspired by the opportunities around them. Our cross-curricular approach allows children to make meaningful links with their learning, build on prior knowledge and aspire for their future.

The St Margaret's spiral curriculum is underpinned by carefully sequenced and vertically integrated knowledge. We strive for depth of knowledge and rigour across all subjects. Children at St Margaret's experience a unique curriculum that engages and enthuses, ensuring progress for all. Procedural knowledge is developed and revisited within year groups, across subjects and throughout the school.

As children build their knowledge and skills they are challenged to apply what they know in increasingly complex ways. Our key concepts and themes are woven through the key stages and enable us to build cohesive and multi layered learning.

We aim for children to produce exceptional outcomes whilst developing their knowledge, independence and creative thinking. We aim to produce collaborators, innovators, leaders and more than anything else, young people who understand what it means to be made in God's image.
